1. Watershed Group Evaluation .....	2
2. Identification of Aquatic Resource Values, Current Condition, and Threats .....	4
a. Compilation of Existing Data .....	4
b. Major Threat Identification.....	6
c. Information From Completed Assessments or Conservation Plans .....	8
d. Data Analysis and Map Production .....	9
e. Identification of Data Gaps .....	9
3. Stakeholder Meeting.....	10
4. Draft Watershed Management Plan Developed .....	12
a. Threat Identification (Sources) and Ranking.....	12
b. Strategies to Address Threats.....	14
c. Desired Outcomes.....	14
d. Success Measurements/Monitoring Approach.....	14
5. Implementation.....	16
6. Plan Evaluation and Evolution .....	17
7. Project Recommendations .....	18

## List of Figures

Figure 1: Overview .....	20
Figure 2: Stream Designations .....	21
Figure 3: Biodiversity Areas .....	22
Figure 4: Aquatic Community Classification .....	23
Figure 5: Impaired Waterways .....	24
Figure 6: Abandoned Mine Features and RCRA Site .....	25
Figure 7: Oil and Gas Development.....	26
Figure 8: Water Withdrawal Location .....	27
Figure 9: Forested Areas .....	28
Figure 10: Agricultural Areas .....	29
Figure 11: Developed Areas.....	30
Figure 12: Forested Riparian Areas .....	31
Figure 13: Agricultural Riparian Areas .....	32
Figure 14: Developed Riparian Areas .....	33
Figure 15: Little Chartiers Creek Watershed .....Land Use – Forest.....	34
Figure 16: Little Chartiers Creek Watershed Land Use – Agricultural .....	35
Figure 17: Little Chartiers Creek Watershed Land Use – Development.....	36
